Viking SuperBowl

All In One Bowl

All in one bowl and microprocessor controlled latching solenoid valve for feeding either powder or solid chemical into a pot and pan sink, bus pan, washing machine, or mop bucket. Run time set with a potentiometer, all features toggled on or off with dip switches.

- 2, 5 and 10 minute end user lockouts available
- Mid cycle shut off feature available
- Unit can be manually triggered or signaled by a laundry machine (24-240 volt AC/DC signal) when ordered with Chem\$aver Laundry Trigger Board (CLTB)
