HOUSEKEEPING SOLUTIONS: MULTI PRODUCT DISPENSING

Fusion Pro: Fast Chemical Dispensing

Fusion Pro is the next generation housekeeping chemical dispensing system, and the evolutionary step in DEMA's innovative housekeeping technology platform, to the Fusion single product chemical dispenser. Fusion Pro's modern and clean design makes it ideal for a variety of applications and installations. It uses DEMA's pilot activated water valve, a unique design, built to operate like a traditional valve but with minimal service requirements. Configurations available for any application, and any requirement.

Features & Benefits

- Two-tone grey colors compliment any custom branding
- Large areas for custom branding on dispensers
- Quick connect manifold and water inlet fitting
- Built-in bubble level simplifies and reduces installation time
- Utilizes DEMA's simple service pilot water valve
- Easy to change diaphragm with easy to access components
- Large, EZ-grip selector knob for product selection
- Color coded activation buttons available with optional lock on bucket fill
- Available with optional locking cabinets and wire racks
- Flo Rite technology for consistent dilutions (action gap)
- Push button cover release with optional security screw

The Fusion Pro logo is located in the bottom right corner, featuring the words "FUSION PR" in white, bold, sans-serif capital letters, with a white water drop icon below the "R".

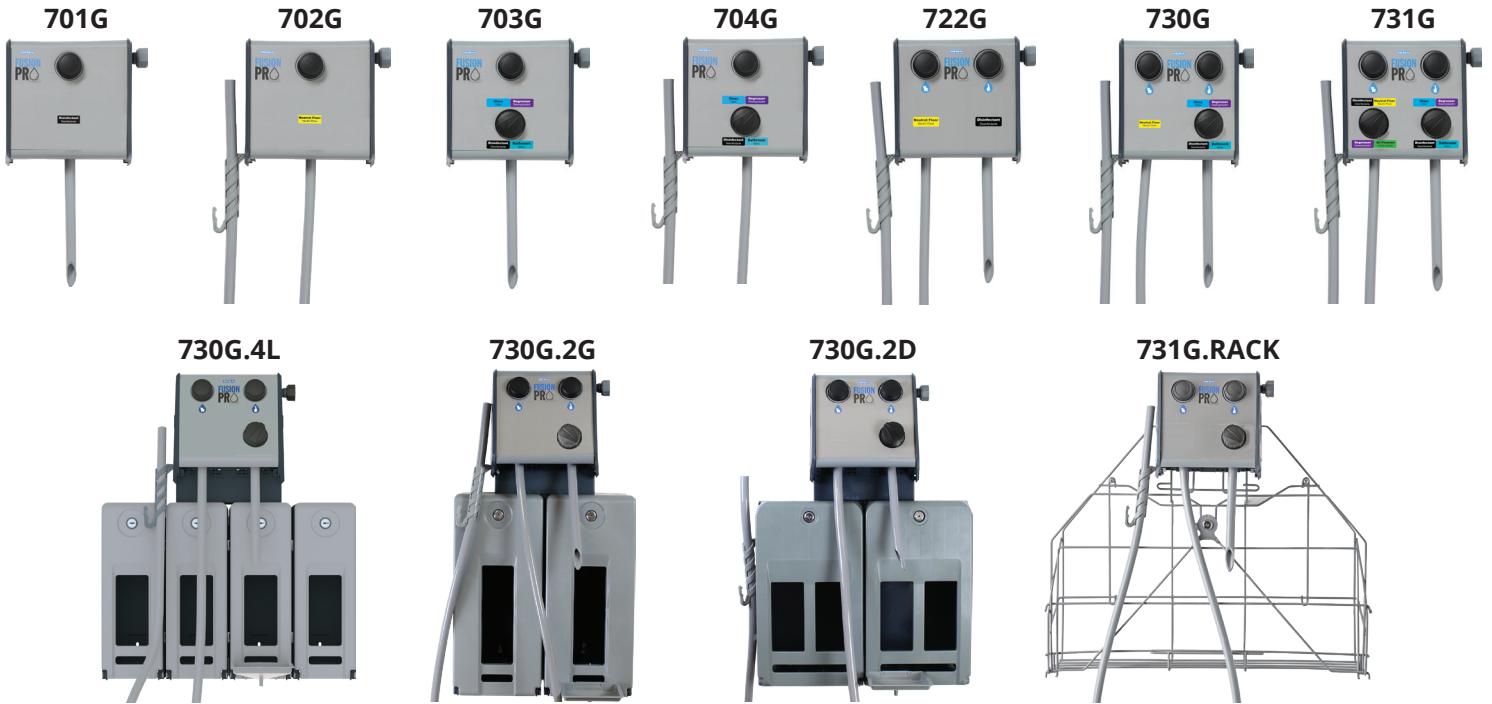

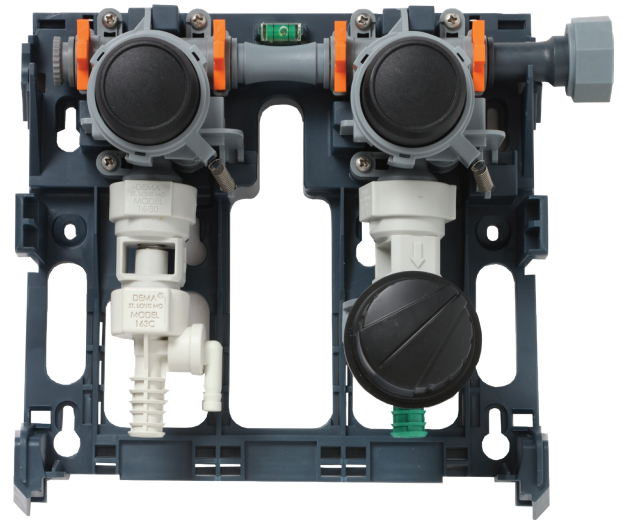

FUSION PR

The Pilot Water Valve

The pilot-activated water valve simplifies service. With fewer components than competitive models, service and maintenance is easier and faster, making it the reliable water valve of choice.
